

## **ReShape Lifesciences® Receives Notice of Allowance for Additional U.S. Patent Related to an Intra-gastric Balloon System**

March 28, 2024

### **Patent Significantly Strengthens Intellectual Property Portfolio**

IRVINE, Calif., March 28, 2024 (GLOBE NEWSWIRE) -- **ReShape Lifesciences® (Nasdaq: RSLS)**, the premier physician-led weight loss and metabolic health-solutions company, today announced that the company has received a Notice of Allowance from the U.S. Patent and Trademark Office (USPTO) for patent application 18/370,819, entitled, "Intra-gastric Device." When issued, the patent will cover claims for an intra-gastric balloon system, comprising a capsule configured to be swallowable by a patient and to degrade in a gastric environment, with a balloon compacted and contained within the capsule, the balloon including an outer and inner surface, an interior cavity, a fill valve and release valve wherein the fill valve and release valves are separate valves, among other claim features. Once issued, the patent will provide protection into at least January 2031, without accounting for a potential Patent Term Extension (PTE).

"Allowance of this patent significantly strengthens our intellectual property portfolio around our innovations for an intra-gastric balloon system and is a significant accomplishment, ensuring comprehensive protection," stated Paul F. Hickey, President and Chief Executive Officer of ReShape Lifesciences. "Since the initial filing of our patent application in 2011, we have secured over 50 patents around the intra-gastric balloon system and ReShape has an extensive family of over 160 patents issued and pending for a wide range of new and protected inventions. Going forward, we will continue to build a defensive 'moat' around our product portfolio, innovation and commercialization efforts. When necessary, we will take offensive action to defend our position utilizing non-diluting funding."

#### **About ReShape Lifesciences®**

ReShape Lifesciences® is America's premier weight loss and metabolic health-solutions company, offering an integrated portfolio of proven products and services that manage and treat obesity and metabolic disease. The FDA-approved Lap-Band® System provides minimally invasive, long-term treatment of obesity and is an alternative to more invasive surgical stapling procedures such as the gastric bypass or sleeve gastrectomy. The investigational Diabetes Bloc-Stim Neuromodulation™ (DBSN™) system utilizes a proprietary vagus nerve block and stimulation technology platform for the treatment of Type 2 diabetes and metabolic disorders. The Obalon® balloon technology is a non-surgical, swallowable, gas-filled intra-gastric balloon that is designed to provide long-lasting weight loss.
