**Notes to Condensed Consolidated Financial Statements  
(dollars in thousands, except per share amounts; unaudited)**

**(1) Basis of Presentation**

The accompanying interim condensed consolidated financial statements and related disclosures of Reshape Lifesciences Inc. (the "Company" or "ReShape") have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") and should be read in conjunction with the consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2022, filed on April 17, 2023. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") have been condensed or omitted.

In the opinion of management, the interim consolidated condensed financial statements reflect all adjustments considered necessary for a fair statement of the interim periods. All such adjustments are of a normal, recurring nature. The results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full year.

***Reverse Stock Split and Merger Exchange Ratio***

On December 23, 2022, at the commencement of trading, the Company effected a 1-for-50 reverse stock split. Accordingly, all share and per share amounts for the periods presented in the accompanying consolidated financial statement and notes thereto have been adjusted retroactively, where applicable, to reflect the reverse stock split. No fractional shares were issued in connection with the reverse stock split.

***Summary of Significant Accounting Policies***

The Company's significant accounting policies are described in Note 4 to its audited consolidated financial statements for the year ended December 31, 2022, which are included in the Company's Annual Report on Form 10-K which was filed with the SEC on April 17, 2023.

***Use of Estimates***

The preparation of financial statements in conformity with GAAP requires management to make estimates and judgments that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may materially differ from these estimates. The Company reviews its estimates on an ongoing basis or as new information becomes available to ensure that these estimates appropriately reflect changes in its business.

***Long-Lived Assets***

We evaluate long-lived assets, including finite-lived intangible assets, for impairment by comparison of the carrying amounts to future net undiscounted cash flows expected to be generated by such assets when events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. Should an impairment exist, the impairment loss would be measured based on the excess carrying value of the asset over the asset's fair value or estimates of future discounted cash flows.

***Fair Value of Financial Instruments***

The carrying amounts of cash equivalents, accounts receivable, accounts payable and certain accrued and other liabilities approximate fair value due to their short-term maturities. Refer to Note 7 regarding fair value measurements and inputs of warrants.

### **Net Loss Per Share**

The following table sets forth the potential shares of common stock that are not included in the calculation of diluted net loss per share because to do so would be anti-dilutive as of the end of each period presented:

### **Recent Accounting Pronouncements**

*New accounting standards adopted are discussed below.*

In June 2016, the FASB issued Accounting Standards Update (“ASU”) No. 2016-13, *Financial Instruments – Credit Losses (Topic 326)*: Measurement of Credit Losses on Financial Instruments, which is intended to provide financial statement users with more useful information about expected credit losses on financial assets held by a reporting entity at each reporting date. In May 2019, the FASB issued ASU No. 2019-05, which amended the new standard by providing targeted transition relief. The new guidance replaces the existing incurred loss impairment methodology with a methodology that requires consideration of a broader range of reasonable and supportable forward-looking information to estimate all expected credit losses. In November 2019, the FASB issued ASU No. 2019-11, which amended the new standard by providing additional clarification. This guidance became effective on January 1, 2023 and did not have a material impact to the consolidated financial statements.

## **(2) Liquidity and Management’s Plans**

The Company currently does not generate revenue sufficient to offset operating costs and anticipates such shortfalls to continue as the Company has modified its strategy to a metrics-driven approach through a sustainable and scalable business model, via a digital lead generation and re-engagement strategy. As of March 31, 2023, the Company had net working capital of approximately \$7.6 million, primarily due to cash and cash equivalents and restricted cash of \$9.1 million, and \$2.1 million of accounts receivable. On February 8, 2023, the Company completed a public offering, which the Company received approximately \$9.4 million in cash and cash equivalents after deducting underwriting expenses, commissions and offering expenses. Based on its available cash resources, the Company may not have sufficient cash on hand to fund its current operations for more than twelve months from the date of filing this Quarterly Report on Form 10-Q. This condition raises substantial doubt about the Company’s ability to continue as a going concern.

The Company’s anticipated operations include plans to (i) grow sales and operations of the Company with the Lap-Band product line both domestically and internationally as well as to obtain cost savings synergies, (ii) introduce to the market place ReShapeCare and ReShape Marketplace as an extension, (iii) marketing efforts to increase brand recognition, create customer awareness and increase the patient demand, (iv) continue development of the DBSN device, (v) seek opportunities to leverage our intellectual property portfolio and custom development services to provide third-party sales and licensing opportunities, and (vi) explore and capitalize on synergistic opportunities to expand our portfolio and offer future minimally invasive treatments and therapies in the obesity continuum of care, including Lap-Band 2.0. The Company believes that it has the flexibility to manage the growth of its expenditures and operations depending on the amount of available cash flows, which could include reducing expenditures for marketing, clinical and product development activities.

The Company may be required to raise additional capital, however, there can be no assurance as to whether additional financing will be available on terms acceptable to the Company, if at all. If sufficient funds on acceptable terms are not available when needed, it would have a negative impact on the Company’s financial condition and could force the Company to delay, limit, reduce, or terminate product development or future commercialization efforts or grant rights to develop and market product candidates or testing products that the Company would otherwise plan to develop.

[Table of Contents](#)

Therefore, the plans cannot be deemed probable of being implemented. As a result, the Company's plans do not alleviate substantial doubt about our ability to continue as a going concern.

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the ordinary course of business. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might result from the outcome of the uncertainties described above.

**COVID-19 Risk**

The impact of the COVID-19 outbreak has subsided substantially in the U.S. but continues to result in reduced activity levels outside of the U.S., such as continued restrictions on travel and business operations and advising or requiring individuals to limit or forego their time outside of their homes or places of business.

**(5) Leases**

The Company has a noncancelable operating lease for office and warehouse space in San Clemente, which was extended by twelve months with an end date of June 30, 2023. The Company also had an operating lease and warehouse space in Carlsbad, California, which expired June 30, 2022. On March 13, 2023, the Company entered into a lease for approximately 5,038 square feet of office and warehouse space at 18 Technology Drive, Suite 110, Irvine California 92618 and intend to relocate our principal executive offices from our current San Clemente, California location to the Irvine, California location. The Irvine California lease has a term of 36 months commencing on May 1, 2023.

The Company does not have any short-term leases or financing lease arrangements. Lease and non-lease components are accounted for separately.

Operating lease costs were \$0.1 million and \$0.2 million for the three months ended March 31, 2023 and 2022, respectively. Variable lease costs were not material.

## (6) Equity

### *Common Stock Issued Related to Restricted Stock Units*

During the three months ended March 31, 2023 and 2022, the Company issued 834 shares of common stock and 16,265 shares of common stock, respectively, subject to vesting of the restricted stock units. For further details see Note 10.

### *February Public Offering of Common Stock and Warrants*

On February 8, 2023, the Company closed a public offering of 1,275,000 units, with each consisting of one share of its common stock, or one pre-funded warrant to purchase one share of its common stock, and one warrant to purchase one and one-half shares of its common stock. Each unit was sold at public offering price of \$8.00. The warrants in the units are immediately exercisable at a price of \$8.00 per share and expire five years from the date of issuance. Alternatively, each warrant can be exercised pursuant to the “alternative cashless exercise” provision, to which the holders would receive an aggregate number of shares of common stock equal the product of (x) the aggregate number of shares of common stock that would be issuable upon a cash exercise and (y) 0.50. For purposes of clarity, one common warrant to purchase one and one-half shares would be exercisable for 0.75 shares under this alternative cashless exercise provision. The shares of common stock (or pre-funded warrants in lieu thereof) and accompanying warrants were only purchasable together in this offering but were issued separately and immediately separable upon issuance. As of March 31, 2023, warrants to purchase 1,670,626 shares of common stock have been exercised under the alternative cashless exercise for a total of 835,313 shares of common stock.

Gross proceeds, before deducting underwriting discounts and commissions and estimated offering expenses, are approximately \$10.2 million. The Company intends to use the net proceeds of this offering to continue implementation of its growth strategies, for working capital and general corporate purposes.

The Company also granted the underwriters an option to purchase an additional 191,250 shares of common stock and/or additional warrants to purchase up to 286,875 shares of common stock, to cover over-allotments, of which Maxim Group LLC exercised its option to purchase additional warrants to purchase 286,875 shares of common stock.

## (7) Warrants

On February 8, 2023, the Company completed a public offering in which three classes of warrants were issued. There were 2,199,375 common stock purchase warrants issued with an alternative cashless exercise provision. The alternative cashless exercise allows the holder to exercise one warrant share for 0.5 shares of common stock or exercise via the cash exercise price of \$8.00 per share of common stock per warrant. These warrants were classified as a liability, and the Company utilized a bifurcated Black-Scholes option pricing model to consider the cash exercise option and cashless exercise option. The bifurcated Black-Scholes option pricing model used an exercise price where the two exercise methods would be indifferent with market inputs of the stock price on the issuance, risk free interest rate, expected share price volatility and dividend yield. The Company calculates the fair value of the warrants at each reporting period and when a warrant is exercised, with the changes in fair value recognized in the statement of operations. Below is a summary of the initial inputs used in the bifurcated Black-Scholes option pricing model.

[Table of Contents](#)

|                | Cash Exercise | Cashless Exercise |
|----------------|---------------|-------------------|
| Stock Price    | \$ 5.905      | \$ 5.905          |
| Exercise Price | \$ 16.00      | \$ 0.00           |
| Term (years)   | 5.00          | 5.00              |
| Volatility     | 96.50%        | 96.50%            |
| Risk Free Rate | 3.784%        | 3.784%            |
| Dividend Yield | 0%            | 0%                |

The following table presents the changes in the fair value of warrant liabilities:

|   | Common Stock<br>Purchase Warrants |
|---|-----------------------------------|
| Fair value as of February 8, 2023 (issuance date)   | \$ 10,363                         |
| Exercises of liability warrants                     | (6,242)                           |
| Gain on changes in fair value of liability warrants | (3,129)                           |
| Fair value as of March 31, 2023                     | <u>\$ 992</u>                     |

In addition, one of the investors purchased 90,000 pre-funded warrants at a price of \$7.999 per warrant. These warrants have an exercise price of \$0.0001 per share and do not expire. The pre-funded warrants were valued at \$0.5 million using the fair value approach at the time of issuance. The fair value of the pre-funded warrants was determined using a Black Scholes option pricing model using a risk free rate of 3.784%, an expected term of 5.0 years, expected dividends of zero and expected volatility of 96.5%.

As part of the terms of the offering the Company issued 73,313 representative's warrants with an exercise price of \$8.80 per share and expiration date on February 3, 2028. The representative's warrants were valued at \$0.3 million using the fair value approach at the time of issuance. The fair value of the representative's warrants was determined using a Black Scholes option pricing model using a risk free rate of 3.786%, an expected term of 4.99 years, expected dividends of zero and expected volatility of 96.5%.

#### (8) Revenue Disaggregation and Operating Segments

The Company conducts operations worldwide and has sales in the following regions: United States, Australia, Europe and Rest of World. For the three months ended March 31, 2023 and 2022, the Company primarily only sold the Lap-Band system. The following table presents the Company's revenue disaggregated by geography:

|               | Three Months Ended<br>March 31, |                 |
|---------------|---------------------------------|-----------------|
|               | 2023                            | 2022            |

| Total revenue | <u>\$ 2,287</u>                 | <u>\$ 2,440</u> |

#### Operating Segments

The Company conducts operations worldwide and is managed in the following geographical regions: United States, Australia, Europe and the Rest of World (primarily in the Middle East). All regions sell the Lap-Band system, which consisted of nearly all our revenue and gross profit for the three months ended March 31, 2023 and 2022. During the three months ended March 31, 2023 and 2022, there was minimal revenue for ReShapeCare. There was no revenue or gross profit recorded for the DBSN device for the three months ended March 31, 2023 and 2022 as this product is still in the development stage. There was also no revenue recorded for the Obalon line.

**(9) Income Taxes**

During the three months ended March 31, 2023 and March 31, 2022, the Company recorded income tax expense of \$14 thousand and \$30 thousand, respectively, related to minimum state taxes and projected Australian and Netherlands income, respectively. The income tax provisions for the three months ended March 31, 2023, were calculated using the discrete year-to-date method. The effective tax rate differs from the statutory tax rate of 21% primarily due to the existence of valuation allowances against net deferred tax assets and current liabilities resulting from the estimated state income tax liabilities and foreign tax liability.

In assessing the realization of deferred tax assets, the Company considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during periods in which those temporary differences become deductible. Based on the level of historical losses, projections of losses in future periods and potential limitations pursuant to changes in ownership under Internal Revenue Code Section 382, the Company provided a valuation allowance at both March 31, 2023 and December 31, 2022.

**(10) Stock-based Compensation**

Stock-based compensation expense related to stock options and RSUs issued under the ReShape Lifesciences Inc. Second Amended and Restated 2003 Stock Incentive Plan (the “Plan”) for the three months ended March 31, 2023 and 2022 were as follows:

|  | Three Months Ended<br>March 31, |               |

| <b>Vested and expected to vest at March 31, 2023</b> | 18,594        | 337.03   | 7.7   | —   |

There was no intrinsic value of the outstanding stock options at March 31, 2023. The unrecognized share-based expense at March 31, 2023 was \$0.3 million, and will be recognized over a weighted average period of 2.3 years.

Stock option awards outstanding under the Company’s incentive plans have been granted at exercise prices that are equal to the market value of its common stock on the date of grant. Such options generally vest over a period of four years and expire at ten years after the grant date. The Company recognized compensation expense ratably over the vesting period. The Company uses a Black-Scholes option-pricing model to estimate the fair value of stock options granted, which requires the input of both subjective and objective assumptions as follows:

[Table of Contents](#)

*Expected Term* – The estimate of expected term is based on the historical exercise behavior of grantees, as well as the contractual life of the options granted.

*Expected Volatility* – The expected volatility factor is based on the volatility of the Company’s common stock for a period equal to the term of the stock options.

*Risk-free Interest Rate* – The risk-free interest rate is determined using the implied yield for a traded zero-coupon U.S. Treasury bond with a term equal to the expected term of the stock options.

*Expected Dividend Yield* – The expected dividend yield is based on the Company’s historical practice of paying dividends on its common stock.

### **Restricted Stock Units**

A summary of the Company’s unvested RSUs award activity for the three months ended March 31, 2023, is as follows:

|   | Shares       | Weighted<br>Average<br>Grant Date<br>Fair Value |
|---|--------------|---|
| <b>Unvested RSUs at December 31, 2022</b> | 4,544        | \$ 174.15                                       |

| Vested <sup>(1)</sup>                     | (1,112)      | 196.26  |
| Cancelled/Forfeited                       | —            | —   |
| <b>Non-vested RSUs at March 31, 2023</b>  | <u>3,432</u> | 166.99  |

<sup>(1)</sup> At March 31, 2023, there were 278 shares of common stock related to RSU awards that had vested and the shares were not distributed to the participants until April of 2023.

The fair value of each RSU is the closing stock price on the Nasdaq of the Company’s common stock on the date of grant. Upon vesting, a portion of the RSU award may be withheld to satisfy the statutory income tax withholding obligation. The remaining RSUs will be settled in shares of the Company’s common stock after the vesting period. The unrecognized compensation cost related to the RSUs at March 31, 2023 was \$0.6 million and expected to be recognized over a period of 1.4 years.

## **(11) Commitment and Contingencies**

### **Litigation**

On August 6, 2021, Cowen and Company, LLC filed a complaint against ReShape, as successor in interest to Obalon Therapeutics, in the Supreme Court of the State of New York based on an alleged breach of contract arising out of Cowen’s prior engagement as Obalon’s financial advisor. The complaint alleges that Cowen is entitled to be paid a \$1.35 million fee in connection with ReShape’s merger with Obalon under the terms of Cowen’s engagement agreement with Obalon. The complaint also seeks reimbursement of Cowen’s attorneys’ fees and interest in connection with its claim. On May 11, 2023, the Supreme Court of the State of New York issued the final judgement in favor of Cowen & Company in the amount of \$1.35 million, plus interest at the statutory rate of 9% per annum from June 16, 2021 until judgement is paid in full, and reimbursement of \$675,000 of Cowen’s attorneys’ fees, with \$275,000 to be paid upfront, \$200,000 paid after six months and \$200,000 paid after 12 months, subject to the final order of the Court. The Company has accrued the \$1.35 million, for the ruling, \$0.7 million for the attorneys’ fees, and \$0.2 million of accrued interest at March 31, 2023, and paid the first installment of \$1.9 million on May 12, 2023.

The Company is not aware of any pending or threatened litigation against it that could have a material adverse effect on the Company’s business, operating results or financial condition, other than what was disclosed above. The medical device industry in which the Company operates is characterized by frequent claims and litigation, including claims regarding patent and other intellectual property rights as well as improper hiring practices. As a result, the Company may be involved in various legal proceedings from time to time.

### ***Product Liability Claims***

The Company is exposed to product liability claims that are inherent in the testing, production, marketing and sale of medical devices. Management believes any losses that may occur from these matters are adequately covered by insurance, and the ultimate outcome of these matters will not have a material effect on the Company's financial position or results of operations. The Company is not currently a party to any product liability litigation and is not aware of any pending or threatened product liability litigation that is reasonably possible to have a material adverse effect on the Company's business, operating results or financial condition.

### **(12) Subsequent Events**

On April 20, 2023, ReShape Lifesciences Inc. (the "Company") entered into a Securities Purchase Agreement (the "Purchase Agreement") with a certain institutional investor (the "Investor"), pursuant to which the Company agreed to issue and sell to the Investor in a registered direct offering (the "Registered Offering") (i) 291,395 shares of the Company's common stock, par value \$0.001 per share (the "Common Stock"), and (ii) pre-funded warrants to purchase an aggregate of 509,300 shares of Common Stock (the "Pre-funded Warrants"). Each share of Common Stock was sold at a price of \$3.07 per share and each Pre-funded Warrant was sold at an offering price of \$3.069 per share underlying such Pre-funded Warrants, for aggregate gross proceeds of approximately \$2.5 million before deducting the placement agent's fees and the offering expenses. Under the Purchase Agreement, the Company also agreed to issue and sell to the Investor in a concurrent private placement (the "Private Placement," and together with the Registered Offering, the "Offering") warrants to purchase an aggregate of 800,695 shares of Common Stock (the "Common Warrants," and together with the Prefunded Warrants, the "Warrants").

In connection with the Offering, the Company also agreed that certain existing warrants to purchase up to an aggregate of 164,656 shares of Common Stock that were issued to the Investor, at an exercise price of \$15.00 per share, were amended effective upon the closing of the Offering so that the amended warrants have an exercise price of \$3.07.

The Company's exclusive placement agent in connection with the Offering, Maxim Group LLC, received a cash fee equal to 7.0% of the gross proceeds received by the Company from the sale of the securities in Offering, as well as reimbursement for certain expenses, and warrants to purchase up to 40,035 shares of Common Stock, which is equal to 5.0% of the aggregate amount of shares of Common Stock (or Common Stock equivalents in the form of Pre-funded Warrants) issued in the Offering, at an exercise price of \$3.38 per share.

The Offering closed on April 24, 2023.

## Non-GAAP Disclosures

In addition to the financial information prepared in conformity with GAAP, we provide certain historical non-GAAP financial information. Management believes that these non-GAAP financial measures assist investors in making comparisons of period-to-period operating results.

Management believes that the presentation of this non-GAAP financial information provides investors with greater transparency and facilitates comparison of operating results across a broad spectrum of companies with varying capital structures, compensation strategies, and amortization methods, which provides a more complete understanding of our financial performance, competitive position, and prospects for the future. However, the non-GAAP financial measures presented in the Form 10-Q have certain limitations in that they do not reflect all of the costs associated with the operations of our business as determined in accordance with GAAP. Therefore, investors should consider non-GAAP financial measures in addition to, and not a substitute for, or as superior to, measures of financial performance prepared in accordance with GAAP. Further, the non-GAAP financial measures presented by the Company may be different from similarly named non-GAAP financial measures used by other companies.

### **Adjusted EBITDA**

Management uses adjusted EBITDA in its evaluation of the Company's core results of operations and trends between fiscal periods and believes that these measures are important components of its internal performance measurement process. Adjusted EBITDA is defined as net loss before interest, taxes, depreciation and amortization, stock-based compensation, and other one-time costs.

Revenue totaled \$2.3 million for the three months ended March 31, 2023, which represents a contraction of 6.3%, or \$0.2 million compared to the same period in 2022. The primary reason for the decrease, is due to a decrease in sales throughout Europe. During the three months ended March 31, 2023, the Company placed more focus on domestic sales, resulting in lower international sales. Our expectation is revenue will continue to increase through the remainder of 2023, as we are focusing on a targeted digital media campaign near bariatric surgical centers that sell the Lap-Band system and have fully launched our three new sizes of calibration tubes.

*Cost of Goods Sold and Gross Profit.* The following table summarizes our unaudited cost of revenue and gross profit for the three months ended March 31, 2023 and 2022, as well as the percentage compared to total revenue and amount of change and percentage of change (dollars in thousands):

*Gross Profit.* Gross profit for both the three months ended March 31, 2023 and 2022, was \$1.2 million. Gross profit as a percentage of total revenue for the three months ended March 31, 2023, was 53.5% compared to 49.9% for the same period in 2022. The increase in gross profit percentage is due to the Company becoming more efficient and looking for cost reduction within our manufacturing processes.

*Sales and Marketing Expense.* Sales and marketing expenses for the three months ended March 31, 2023, decreased by \$2.5 million, or 53.5%, to \$2.2 million, compared to \$4.7 million for the same period in 2022. The decrease is primarily due to a decrease of \$2.4 million in advertising and marketing expenses, as the Company has reevaluated its marketing approach and has moved to a targeted digital marketing campaign, resulting in a reduction of costs. We also had a reduction in payroll expenditure, including commissions of \$0.2 million, due to changes in sales personnel and lower sales. There was also a reduction in stock based compensation expenses of \$0.1 million. This was offset by an increase in consulting and professional services of \$0.2 million, as we are working on developing the ReShape Care platform.

*General and Administrative Expense.* General and administrative expenses for the three months ended March 31, 2023, increase by \$0.3 million, or 8.4%, to \$4.2 million, compared to \$3.9 million for the same period in 2022. The increase is due to one-time adjustments for professional services of \$1.7 million primarily related to the February public offering. This was offset by a decrease of \$0.4 million in stock-based compensation expense and \$0.4 million in payroll related expenditure due to changes in personnel. Additionally, we had a decrease in amortization cost of \$0.4 million as we impaired our finite lived intangible assets during the fourth quarter of 2022. We also had a decrease in rent of \$0.1 million as the lease in Carlsbad, California terminated during June 2022. We had many miscellaneous reductions in general and administrative expenses, as we are continuously working on efficiencies and cost reduction efforts.

*Research and Development Expense.* Research and development expenses for the three months ended March 31, 2023, decreased by \$0.3 million, or 39.2%, to \$0.5 million, compared to \$0.8 million for the same period in 2022. The decrease is primarily due to a decrease of \$0.2 million in payroll expenses and a reduction of \$0.1 million in consulting and clinical related expenses.

## Liquidity and Capital Resources

The accompanying condensed consolidated financial statements have been prepared assuming the Company will continue as a going concern. The Company currently does not generate revenue sufficient to offset operating costs and anticipates such shortfalls to continue as the Company has modified its strategy to a metrics-driven approach through a sustainable and scalable business model, via a digital lead generation and re-engagement strategy. As of March 31, 2023, the Company had net working capital of approximately \$7.6 million, primarily due to cash and cash equivalents and restricted cash of \$9.1 million. The Company's principal source of liquidity as of March 31, 2023, consisted of approximately \$9.1 million of cash and cash equivalents and restricted cash, and \$2.1 million of accounts receivable. Based on its available cash resources, the Company may not have sufficient cash on hand to fund its current operations for more than twelve months from the date of filing this Quarterly Report on Form 10-Q. This condition raises substantial doubt about the Company's ability to continue as a going concern. The Company believes in the viability of its business strategy and in its ability to raise additional funds, however, there can be no assurance to that effect.

The following table summarizes our change in cash and cash equivalents and restricted cash (in thousands):

#### ***Net Cash Used in Operating Activities***

Net cash used in operating activities from operations was \$5.1 million and \$7.4 million for the three months ended March 31, 2023 and 2022, respectively. For the three months ended March 31, 2023, net cash used in operating activities was primarily the result of our net loss of \$2.7 million, partially offset by non-cash adjustments for stock-based compensation expense of \$0.2 million and non-cash offering cost of \$0.3 million, offset by a negative cash impact related to gains recognized for changes in fair value of liability warrants of \$3.0 million. We show a negative cash impact to prepaid expenses of \$0.4 million. This was offset by a positive cash impact to inventory of \$0.1 million and accounts payable and accrued liabilities of \$0.3 million.

For the three months ended March 31, 2022, net cash used in operating activities was primarily the result of our net loss of \$8.1 million, partially offset by non-cash adjustments for stock-based compensation expense of \$0.7 million, amortization of intangible assets of \$0.5 million, depreciation expense of \$0.1 million, and provision for excess and obsolete inventory of \$0.1 million. We show a negative cash impact to inventory of \$1.1 million, as the Company is building up its inventory to meet the expected increase in demand due to the direct to consumer marketing campaign and a negative cash impact to prepaid and other current assets of \$0.1 million. This was offset by a positive cash impact to accounts and other receivables of \$0.4 million and accounts payable and accrued liabilities of \$0.2 million.

#### ***Net Cash (Used in) Provided by Investing Activities***

Net cash (used in) and provided by investing activities for the three months ended March 31, 2023 and 2022, was minimal.

#### ***Net Cash Provided by Financing Activities***

Net cash provided by financing activities was \$10.2 million for the three months ended March 31, 2023, due to the proceeds received from the public offering completed during February 2023, less costs to complete the transaction.

There was no cash flows financing activities during the three months ended March 31, 2022.

#### ***Operating Capital and Capital Expenditure Requirements***

The Company currently does not generate revenue sufficient to offset operating costs and anticipates such shortfalls to continue as the Company has modified its strategy. The Company's anticipated operations include plans to (i) grow sales and operations of the Company with the Lap-Band product line both domestically and internationally as well as to obtain cost savings synergies, (ii) introduce to the market place ReShapeCare and ReShape Marketplace as an extension, (iii) ramp up a focused approach of marketing to increase brand recognition, create customer awareness and increase the patient demand, (iv) continue development of the DBSN device, (v) seek opportunities to leverage our intellectual property portfolio and custom development services to provide third-party sales and licensing opportunities, and (vi) explore and capitalize on synergistic opportunities to expand our portfolio and offer future minimally invasive treatments and therapies in the obesity continuum of care, including Lap-Band 2.0 and the Obalon Balloon System. The Company believes that it has the flexibility to manage the growth of its expenditures and operations depending on the

amount of available cash flows, which could include reducing expenditures for marketing, clinical and product development activities.

Because of the numerous risks and uncertainties associated with the development of medical devices, such as our Diabetes Bloc-Stim Neuromodulation, we are unable to estimate the exact amounts of capital outlays and operating expenditures necessary to complete the development of the Diabetes Bloc-Stim Neuromodulation or other additional products and successfully deliver a commercial product to the market. Our future capital requirements will depend on many factors, including, but not limited to, the following:

- the cost and timing of establishing sales, marketing and distribution capabilities;
- the cost of establishing clinical and commercial supplies of our Diabetes Bloc-Stim Neuromodulation, and any product candidates;
- the rate of market acceptance of our Diabetes Bloc-Stim Neuromodulation, and any other product candidates;
- the cost of filing and prosecuting patent applications and defending and enforcing our patent and other intellectual property rights;
- the cost of defending, in litigation or otherwise, any claims that we infringe third-party patent or other intellectual property rights;
- the effect of competing products and market developments;
- the cost of explanting clinical devices;
- the terms and timing of any collaborative, licensing or other arrangements that we may establish;
- any revenue generated by sales of our Lap-Band, ReShapeCare, ReShape Marketplace, Obalon Balloon System, Diabetes Bloc-Stim Neuromodulation or our future products;
- the scope, rate of progress, results and cost of our clinical trials and other research and development activities;
- the cost and timing of obtaining any further required regulatory approvals; and
- the extent to which we invest in products and technologies, although we currently have no commitments or agreements relating to any of these types of transactions.

#### **Critical Accounting Policies and Estimates**

The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States which require us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed consolidated financial statements and revenues and expenses during the periods reported. Actual results could differ from those estimates. Information with respect to our critical accounting policies and estimates which we believe could have the most significant effect on our reported results and require subjective or complex judgments by management is contained in Item 7, “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*,” of our Annual Report on Form 10-K for the year ended December 31, 2022. There have been no significant changes from the information discussed therein.

During the three months ended March 31, 2023 there were no material changes to our significant accounting policies above, which are fully described in Note 4 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2022.

#### **Recent Accounting Pronouncements**

See Note 1 to our condensed consolidated financial statements for a discussion of recent accounting pronouncements.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, we are not required to provide disclosure pursuant to this item.

### ITEM 4. CONTROLS AND PROCEDURES

#### *Evaluation of Disclosure Controls and Procedures*

Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), defines the term “disclosure controls and procedures” as those controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and that such information is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Our internal control system was designed to provide reasonable assurance to our management and board of directors regarding the preparation and fair presentation of published financial statements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. An internal control material weakness is a significant deficiency, or aggregation of deficiencies, that does not reduce to a relatively low level the risk that material misstatements in financial statements will be prevented or detected on a timely basis by employees in the normal course of their work. An internal control significant deficiency, or aggregation of deficiencies, is one that could result in a misstatement of the financial statements that is more than inconsequential. In making its assessment of internal control over financial reporting management used the criteria issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control - Integrated Framework (2013). Our management assessed the effectiveness of our internal control over financial reporting as of March 31, 2023, and determined that our internal control over financial reporting was not effective at a reasonable assurance level due to the following material weakness in our internal control over financial reporting:

**Control Environment:** We had insufficient internal resources with appropriate accounting and finance knowledge and expertise to design, implement, document and operate effective internal controls around our financial reporting process. The insufficient internal resources resulted in misstatements of our revenue recognition, stock based compensation, weighted average share calculation, disclosures of income taxes and expense cut off at period end.

**Purchase Accounting:** The Company did not design and maintain effective management review controls at a sufficient level of precision over the accounting for transactions related to the prepaid D&O insurance policy purchased in connection with the merger transaction in June 2021. This material weakness resulted in certain material corrections to the financial statements and in the restatement of the Company’s financial statements for the annual and interim consolidated financial statements for the year ended December 31, 2021, and the interim consolidated financial statements in the quarters in the year ended December 31, 2022.

**Income Taxes:** The Company did not design and maintain effective management review controls at a sufficient level of precision over the accounting for income taxes.

**Journal entry access and review:** The Company did not have effective processes to ensure that all journal entries were properly approved prior to being posted to the general ledger. Furthermore, a segregation of duties conflict is present as certain individuals have the ability to both prepare and post journal entries to the general ledger.

**Information technology access and change management:** A segregation of duties conflict is present as access and approval rights to the Company’s information technology systems are not reviewed on a timely basis. Furthermore, certain individuals have the ability to develop and deploy changes to production which could create a segregation of duties risk.

We are currently implementing our remediation plan to address the material weaknesses identified above. Such measures include:

- Hiring additional accounting personnel to ensure timely reporting of significant matters.

- Designing and implementing controls to formalize roles and review responsibilities to align with our team's skills and experience and designing and implementing formalized controls.
- Designing and implementing formal processes, policies and procedures supporting our financial close process.
- Design a formal review of a monthly journal entry report to ensure journal entries are appropriately approved within a timely manner.

#### ***Changes in Internal Control over Financial Reporting***

Other than in connection with executing upon the continued implementation of the remediation measures referenced above, there have been no changes in our internal controls over financial reporting during the quarter ended March 31, 2023, that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

## **PART II – OTHER INFORMATION**

### **ITEM 1. LEGAL PROCEEDINGS**

On August 6, 2021, Cowen and Company, LLC filed a complaint against ReShape, as successor in interest to Obalon Therapeutics, in the Supreme Court of the State of New York based on an alleged breach of contract arising out of Cowen's prior engagement as Obalon's financial advisor. The complaint alleges that Cowen is entitled to be paid a \$1.35 million fee in connection with ReShape's merger with Obalon under the terms of Cowen's engagement agreement with Obalon. The complaint also seeks reimbursement of Cowen's attorneys' fees and interest in connection with its claim. On May 11, 2023, the Supreme Court of the State of New York issued the final judgement in favor of Cowen & Company in the amount of \$1.35 million, plus interest at the statutory rate of 9% per annum from June 16, 2021 until judgement is paid in full, and reimbursement of \$675,000 of Cowen's attorneys' fees, with \$275,000 to be paid upfront, \$200,000 paid after six months and \$200,000 paid after 12 months, subject to the final order of the Court. The Company has accrued the \$1.35 million, for the ruling, \$0.7 million for the attorneys' fees, and \$0.2 million of accrued interest at March 31, 2023, and paid the first installment of \$1.9 million on May 12, 2023.

The Company is not aware of any pending or threatened litigation against it that could have a material adverse effect on the Company's business, operating results or financial condition, other than what was disclosed above. The medical device industry in which the Company operates is characterized by frequent claims and litigation, including claims regarding patent and other intellectual property rights as well as improper hiring practices. As a result, the Company may be involved in various legal proceedings from time to time.
